PROGICIEL DE GESTION DE CREDITS

Testimonial Courtier-Web, France

Mssqlserver to Mysql data migration Our client had an urgent need to quickly migrate data from Microsoft SQL Server to MySQL database. To help our client out of trouble, we contacted Ispirer team to find out whether their tool SQLWays would be able to automatically perform the migration. Ispirer professionals grasped our needs and produced a customized license of their tool SQLWays specifically for our migration. Most importantly, SQLWays toolset made perfect work without any manual intervention, saved our time and ensured great quality of migrated data. We really appreciated Ispirer's flexibility and efficiency. It's great to work with so responsive, easy to communicate with and professional team.
